

Strategic Alternate Sourcing Program Office (SASPO) Commercially-Used Overhauled (C-U/O) Potential Buy List Spring 2016 Requirements

SASPO's Commercially-Used Overhauled Potential Buy List is a subset of the Requirements Projections On the Web (RPOW). All items are Propulsion items and are managed at Tinker AFB.

The items listed below identified as having Air Force-approved sources of repair may be advertised on FedBizOps through open solicitations. Although the Air Force is seeking to identify commercial availability and expand its use of commercially-used overhauled parts, these items may or may not be procured as overhauled parts depending on the needs of the Air Force.

The items listed below that are identified as not having an Air Force approved source, are those items the Air Force is looking for companies with the right repair capabilities to submit Source Approval Requests (SARs) in order to potentially become an Air Force-approved repair source.

Companies may request Qualification Requirements (QR) from the Small Business Office (SBO) at afsc.sb.workflow@tinker.af.mil.

SAR packages (from either large or small businesses) should be delivered to the Small Business Office at the following address: AFSC/SB, 3001 Staff Drive, Suite 1AG85A, Tinker AFB, OK 73145-3009.

NOTE: Emailed requests for QRs must include the National Stock Number (NSN) in the subject line.

For a digital copy of this C-U/O List, please download from the SASPO website at <http://www.tinker.af.mil/429scms.saspo/> or request via email at: 429SCMS.SASPO.Workflow@us.af.mil

****Disclaimer**** *The projections contained in this spreadsheet may or may not generate due to variability in customer demands and priorities. The forecast data is for planning purposes only and does not constitute an invitation for bid or request for proposal, and is not a commitment by the government to purchase the described items (whether as overhauled or new parts). The quantities represented may or may not fluctuate depending upon the needs of the Air Force.*
