

Air Force Managed New Buys Target List

The Strategic Alternate Sourcing Program Office (SASPO) Target List is a subset of the Requirements Projections On the Web (RPOW) wherein the government should own the data rights, has fewer than three (3) sources identified, and has a projected buy value within the next three (3) fiscal years. Items on this list do not have obsolescence issues. This list is separated by Air Logistics Complexes and may be downloaded from the SASPO website www.tinker.af.mil/429scms.saspo. E-mail Address: 429scms.saspo.workflow@us.af.mil.

****Disclaimer**** The projections contained in the attached spreadsheet may or may not generate due to variability in customer demands and priorities. The forecast data is for planning purposes only and does not constitute an invitation for bid or request for proposal, and is not a commitment by the government to purchase the described items.

Qualification Requirements (QRs)

To request qualification requirements for Air Force managed items, please email the respective Small Business Office listed below. All requests should include the National Stock Number (NSN) in the subject line.

Public Sales Office (PSO)

The ALCs data management office provides a means by which commercial customers may purchase engineering data directly from the ALCs' data repository. The PSO is separate from the Freedom of Information Act (FOIA) and requires the customer to register with Federal Business Opportunities (FedBizOpps) www.FBO.Gov prior to a purchase request. Once registered, the customer may submit a request for data or ask questions through the PSO email listed below. The PSO offers single or revolving account data purchase options. Department of Defense policy mandates only the Data Custodian listed on the Military Critical Technical Data Agreement (DD Form 2345) is eligible to receive data.
