In the Spotlight

Community College of the Air Force

CCAF, the largest community college in the world and the only one in the Department of Defense, was activated in 1972 to gain academic recognition for technical training conducted by Air Force schools. The college offers 66 degrees in five areas: aircraft and missile maintenance, electronics and telecommunications, allied health, logistics and resources, and public and support services.

Hot! AU-ABC Program

AU-ABC is the Air University Associate to Baccalaureate Cooperative Program. AU-ABC is an initiative between the Air Force and civilian higher education institutions to offer baccalaureate degree opportunities to every Air Force enlisted member. The program directs Airmen with associate in applied science degrees to a collection of accredited "military friendly" colleges and universities to consider when completing a four-year degree.
