usaf.tinker.72-mdg.mbx.72-mdg-sgpm-public-health@health.mil

**Please note- emails must be sent UN-encrypted, encrypted emails cannot be opened from the org box.

Isolation Information for Positive Personnel

As of 30 Jan 2023, Consolidated Department of Defense COVID-19 FHPG, Rev 4 - Personnel who test positive for COVID-19 will remain out of the workplace for 5 days. To calculate the recommended time frames, day 0 is the day tested if no symptoms, or the date symptoms started. Personnel who test positive for COVID-19 may return to the workplace, if either: (1) they have no symptoms; or (2) if they are fever-free for more than 24 hours (without the use of fever-reducing medication) and any remaining symptoms are resolving. Mask wearing must continue in the workplace for an additional 5 days (for a total of 10 days post-positive result), even if mask wearing otherwise is not required by DoD guidance.

Recommendations for Close Contacts

Close contact: w/n 6 ft. of lab confirmed + individual for 15 minutes or more in 24 hr period w/n 2 days of the + individual's symptom onset. If personnel have been exposed to COVID-19 and are a confirmed close contact, then see recommendations below:

- Personnel exposed to COVID-19 will notify their supervisor.
- All close contacts identified through contact tracing or exposure must wear a mask around others while indoors for 10 days, even if mask wearing is not otherwise required by DoD guidance. If symptoms develop, then the individual must get tested and isolate until test results are complete.
- Service members in the workplace must test at least once after 5 full days following exposure. For a full 10 days after exposure, service members must continue to self-monitor, and practice strict adherence to all non-pharmaceutical intervention mitigation strategies, wear masks, avoid crowds, practice physical distancing, hand and cough hygiene, maintain adequate indoor ventilation, and perform environmental cleaning and disinfection.
