TINKER AIR FORCE BASE MISSION

U.S. Air Force photo by Kelly White

Tinker's changing landscape reflects the overall importance of the base's mission and ability to adapt to meet the demand of sustaining combat airpower for America. New construction in the form of the KC-46A Pegasus aerial refueling tanker and new air traffic control tower which add significant infrastructure upgrades will support expanded operations far into the future. The physical changes continue the progress which began in late 2011 when the Air Force announced an initiative to restructure Air Force Materiel Command from a 12-center configuration to a new six-center structure. Under this organization Tinker AFB became the host site for the Air Force Sustainment Center. The **Air Force Sustainment Center** is one of six centers under the Air Force Materiel Command and is the supporting command for readiness. Its mission is to provide sustainment and logistics readiness to deliver Combat Power for America by providing war-winning expeditionary capabilities to the warfighter. The AFSC also provides operational planning and execution for the Air Force supply chain management and operations and depot maintenance for a wide range of aircraft, engines, missiles, and component items in support of U.S. Air Force missions. It is responsible for operations which span three air logistics complexes, Ogden Air Logistic Complex at Hill AFB, Utah; Oklahoma City ALC at TAFB; and Warner-Robins ALC at

Robins AFB, Georgia; three air base wings, 72nd Air Base Wing, 75th ABW and 78th ABW; two supply chain wings, 448th Supply Chain Management Wing and 635th Supply Chain Operations Wing; and multiple remote operating locations, incorporating approximately 40,000 military and civilian personnel. In addition, it oversees installation support to more than 75,000 personnel working in 140 associate units at the three AFSC bases. The center is headquartered in Bldg. 3001.

The 72nd Air Base Wing is the host organization for Tinker AFB. The wing provides base installation and support services for the Air Force Sustainment Center headquarters, the Oklahoma City Air Logistics Complex and more than 45

Tinker Air Force Base was named in honor of Maj. Gen. Clarence L. Tinker of Pawhuska, Okla. General Tinker lost his life while leading a flight of LB-30 "Liberators" on a long-range strike against Japanese forces on Wake Island during the early months of World War II.

Major Gen. Clarence L. Tinker

associate units assigned to eight major commands, including the second largest flying wing in Air Combat Command, the Navy's Strategic Communications Wing ONE and several Defense agencies.

Tinker's largest organization is the **Oklahoma City Air Logistics Complex**. It is the largest of three depot repair complexes in the Air Force Materiel Command. The complex performs programmed depot maintenance on the C/KC-135, B-1B, B-52H and E-3 aircraft, expanded phase maintenance on the Navy E-6B aircraft, and maintenance, repair and overhaul of F100, F101, F108, F110, F117, F118, F119, TF33, F135 and F137 engines for the Air Force, Air Force Reserve, Air National Guard, Navy and foreign military sales. Additionally, the complex is responsible

for the maintenance, repair and overhaul of a myriad of Air Force and Navy airborne accessory components, and the development and sustainment of a diverse portfolio of operational flight programs, test program sets, automatic test equipment and industrial automation software.

More than 10,000 military and civilian employees work in the OC-ALC, comprised of more than 63 buildings and approximately 8.5 million square feet of industrial space on Tinker Air Force Base. The complex is headquartered in historic Bldg. 3001, which covers 62 acres and stretches for seven-tenths of a mile. Within its walls, workers perform a vast array of multifaceted maintenance processes on aircraft, engines, components, and accessories and a multitude of crucial

administrative operations.

From the initial planned site of 960 acres in March 1941, Tinker's physical plant has become, by standards, a "mega-facility." Today, the base is made up of 5,000 acres with 427 buildings containing more than 18 million square feet of floor space and 294 acres of ramp space, all supported by the 72nd ABW.

The base is comparable to a city. The 72nd ABW provides essential support services for 26,000 military and civilian assigned to the base, along with 6,000 family members and 59,000 military retirees and their family members. The wing provides critical base functions including: security, fire protection, medical services, civil engineering, communications and supply, transportation

U.S. Air Force photo by Kelly White

and air field operations. The base also offers a variety of recreational and leisure activities including the 18-hole golf course, picnic grounds, library, swimming pool, fitness centers and a bowling alley.

Organizations assigned to the wing include: 72nd Medical Group, 72nd Mission Support Group, 72nd Operations Support Squadron, 72nd Comptroller Squadron, Civil Engineer Directorate, Communications Directorate, the Base Chapel, Base Plans Office, Military Equal Opportunity, Judge Advocate, Safety, Inspector General's office, Information Protection and Public Affairs.

Tinker is host to operational missions for the Air Force and Navy as well as several Department of Defense agencies. Shared location and consolidation of these defense missions with the Oklahoma City Air Logistics Complex allows maximum use of technical skills, saves money and reduces aircraft downtime.

The 448th Supply Chain Management Wing provides the planning and execution of depot-level repairable and consumable spare parts to sustain Air Force Programmed Depot Maintenance operations and more than 5,000 operational aircraft and 16,000 engines across the globe. The wing also provides spare parts to sustain a credible and responsive Intercontinental Ballistic Missile capability, a wide range of support equipment, and Space and C3I systems. The 448th SCMW is a virtual wing without geographic boundaries, operating within three different time zones, which makes it a "one-of-a-kind" organization. The wing, headquartered at Tinker Air Force Base, consists of three Planning and Execution Groups and one Supply Chain Management Group and employs approximately 3,000 civilian and military personnel dispersed at Tinker AFB, Robins AFB, Georgia and Hill AFB, Utah.

The 552nd Air Control Wing reports to the Twelfth Air Force with headquarters at Davis-Monthan Air Force Base, Arizona. The 552nd ACW is responsible to the commander of Air

Combat Command for the operations, maintenance, logistics, training and combat support of the Air Force's operational inventory of E-3 AWACS aircraft in support of combatant commanders. The wing provides combat-ready theater battle management forces at the direction of the Chairman of the Joint Chiefs of Staff. It operates and supports these forces worldwide ensuring combat capability for all peacetime and contingency operations.

The 552nd Air Control Wing has crews deployed throughout Southwest Asia, Europe and South America in support of ongoing Joint Chiefs of Staff-directed contingency operations. Operational E-3 flying squadrons are located at Tinker AFB, and overseas at Kadena Air Base, Japan and Elmendorf AFB, Alaska.

Serving alongside the 552nd are the men and women assigned to the **513th Air Control Group**, the Air Force Reserve Command's first airborne Warning and Control Systems organization.

Photos courtesy of Tinker History Office

Tinker AFB's history began in 1940 when a group of Oklahoma City civic leaders and businessmen learned that the War Department was considering the central United States as a location for a maintenance and supply depot. On April 8, 1941, the order was officially signed awarding the depot to Oklahoma City.

The Navy's Strategic Communications Wing ONE provides a vital, secure communications link to the submerged fleet of ballistic missile submarines. Strategic Communications Wing 1 is also Task Force 124. SCW-1 is an administrative command, responsible to Commander Naval

U.S. Air Force photo by Kelly White

Air Forces for manning, training and equipping the Navy squadrons responsible for Nuclear Command and Control Communications to the nation's nuclear triad. TF 124 is an operational command, responsible to Commander U.S. Strategic Command, to provide the airborne platform and aircrew for the U.S. Strategic Command Airborne Command Post, the Airborne Launch Control System and the TACAMO EAM Relay missions. SCW-1/TF 124 has direct responsibility over Fleet Air Reconnaissance Squadron 3, VQ-4, VQ-7, VQ-3's Detachment at Travis AFB, California, SCW-1 Detachment Offutt AFB, Nebraska and VQ-4's Detachment at NAS Patuxent River, Maryland.

The 507th Air Refueling Wing is the largest Air Force Reserve Command flying unit in the state of Oklahoma. The 507th ARW, operating out of Tinker Air Force Base, reports to Fourth Air Force and performs daily missions both locally and around the world in support of Air Mobility Command and U.S. Strategic Command's national emergency war order requirements. The 507th regularly supports overseas deployments in times of peace, war and national emergency. It also supports the Air Force Flight Standards Agency located at the Armed Forces Reserve Center off Douglas Boulevard, as well as C-17, KC-135 – and in the future, KC-46 – training requirements at a geographically separated unit at Altus Air Force Base.

Today, the 507th ARW consists of three subordinate groups, 11 squadrons and one flight. It employs more than 1,100 men and women. The 507th ARW is made up of Citizen Airmen and many live and work in Oklahoma communities, in addition to their reserve commitment in the unit. Approximately 200 members of the 507th are traditional civilian employees or dual status Air Reserve Technicians who serve as a support cadre.

The 507th ARW is one of the more diverse Air Force Reserve units in existence. The wing operates and maintains eight KC-135R "Stratotanker" aircraft, providing worldwide aerial refueling to U.S. military and NATO aircraft. Reservists fly three to four missions daily and offload millions of pounds of fuel in support of operations worldwide. The 507th ARW flies more than 4,000 hours annually supporting national defense taskings.

Additionally, the wing serves as the peacetime personnel and support backbone for the 513th Air Control Group, the Air Force Reserve's only associate E-3 Sentry Airborne and Warning Control System unit, the 1st Aviation Standards Flight and the 35th Combat Communications Squadron. Expeditionary medical support rounds out the wing to make it one of the Reserve Command's most valuable assets.

The 38th Cyberspace Engineering Installation Group plans, engineers and delivers a survivable and resilient infrastructure to establish the cyberspace domain and enables the Air Force to conduct net-centric offensive and defensive air, space and cyberspace operations.

Air Force photo by Kelly White

The new KC46A Pegasus maintenance campus will eventually house 14 hangars on 156 acres with facilities to handle maintenance, repair and modification operations. This segment of the campus represents the first portion of the massive project that is expected to run through fiscal year 2029.

The Defense Distribution Depot Oklahoma provides the receipt, storage, issue, inspection and shipment of material, including material quality control, preservation and packaging, inventory, transportation functions and pickup and delivery services in support of OC-ALC and other Tinker-based organizations.

The Defense Information Systems Agency Defense Enterprise Computing Center, Oklahoma City, a combat support agency of the Department of Defense committed to providing enterprise-level information technology support and service capabilities to its mission partners. The agency provides, operates, and assures command and control and information-sharing capabilities and a globally accessible enterprise information infrastructure in direct support to joint warfighters, national level leaders, and other mission and coalition partners across the full spectrum of military operations. DISA is focused on providing enterprise services, unified capabilities, and mobility options to support DOD operations anywhere, anytime. Through enterprise security architectures, smart computing options and other leading-edge IT opportunities, DISA is the premier provider of IT services to meet the nation's defense needs.

Tinker AFB's history began in 1940 when a group of Oklahoma City civic leaders and businessmen learned that the War Department was considering the central United States as a location for a maintenance and supply depot. On April 8, 1941, the order was officially signed awarding the depot to Oklahoma City. Since then, the support provided by the local community has expanded to make Oklahoma a hub for aviation maintenance excellence and innovation and one of the most important industries statewide with an economic impact of \$44 billion.

DIRECTORY INFORMATION

DIRECTORY INFORMATION

The Tinker Air Force Base Telephone Directory is printed by Public Affairs with information obtained from your organization's Telephone Control Officer.

The directory is now also available on the TAFB Web site. Please feel free to send comments or suggestions for improving our service to Public Affairs.

SERVICES

Establishing or Relocating Phone Service:

Organizational Telephone Control Officers (TCOs) can assist you in your efforts to install, relocate, alter or terminate service. To obtain the identity of your organization's TCO, call 734-5582.

Repair Service:

Contact 72 ABW/SC at 734-4357.

Please have the following information available:

Type of trouble (broken receiver, no dial tone, etc)

Building number, post, room, location and phone number

Name and extension number of initiator

Enhanced Services:

Some enhanced services such as direct long distance dialing and call pick up groups are not authorized or available on all phones. Your TCO and instrument user guide can instruct you on individual access capabilities.

MAKING CONNECTIONS

739 Prefix	339

TDD Message Relay Service

Telecommunications Device for the Deaf phone numbers work only when calling from a TDD. If you have a TDD and need to talk to someone who does not have one, the following numbers will assist you.

Dial 99-942-8188(Oklahoma City)

Dial 99-1-800-522-8506(Outside Oklahoma City)

DIALING FEATURES

May not be available with all phone models - check with your TCO

Forwarding calls to another TAFB number:

Dial 222 plus seven-digit number

Listen for Stutter Tone to confirm activation

Forwarding call with Answer Option:

To forward your station line after three rings -

Dial 223 plus seven-digit number

Listen for Stutter Tone to confirm activation

Forwarding call - Line Busy

To forward your station line if your line is busy - Dial 227

Listen for Stutter Tone to confirm activation

Call Intercept

To intercept a call within your call group - Dial 225

A call group is a shared group of numbers in an office. This feature allows you to answer other numbers in your group. This option is available by identifying shared numbers via the AF Form 3215. Your TCO will be able to assist you with this.

Cancel forwarding:

Cancel forwarding:

Dial 257

Listen for Stutter Tone to confirm cancellation

Voice Mail 739-2465

If you have voice mail and need assistance, first contact your TCO. If this does not resolve your problem, call Telephone Help Desk at 734-4357.

PHONE SECURITY

Classified

Classified information should not be discussed or revealed over the administrative telephone system. Personnel who make disclosures of classified information during a conversation on a telephone are subject to disciplinary action.

Nuisance Calls and Bomb Threats

Malicious, threatening or abusive calls, including those where obscene or profane language is used, are prohibited. Calls of this nature should be reported immediately to Security Forces by calling 911. Correct procedures for handling a bomb threat (AF Form 440, Bomb Threat) should be posted near each telephone.

MINIMIZE Procedures

MINIMIZE is a condition imposed by a commander to reduce and control electrical and telephone traffic within the commander's area of authority during an emergency or exercise. MINIMIZE may be imposed DOD-wide, Air Force wide, Command-wide or on given countries, states, or areas as conditions warrant. All systems or any portion of the systems may be placed under MINIMIZE by the imposing authority.

Proper Phone Use

The entire Tinker AFB phone system is provided for official use only. Many new features and capabilities have been added and more will be added in the future. This will provide the user with a system which is easier to use and to increase the efficiency of conducting official business. All users should be aware that the type of calls, origination, and destination are monitored on a continuing basis, and some calls are recorded. If this monitoring shows misuse of the system, the information is provided to the abusers management for appropriate action.

Moving Telephones and associated equipment

Please do not move telephones or associated equipment. Telephone equipment is frequently damaged when moved by unauthorized and unqualified personnel. Analog systems should be moved by the Base Telephone Systems O&M contractor who is authorized and qualified to perform this service. Please contact your Unit Telephone Control Officer for guidance if you need to move a Voice over Internet Protocol (VoIP) phone.

Hearts Apart Morale Calls

Is a program that allows deployed member and family to communicate by allowing two 15 minute phone calls per week.

Hearts Apart Morale Calls

Dialing to Deployed Location

1. Dial 405-736-2426
2. Listen to recording and press 1 to make call
3. Press 1 again to allow number entry. Number dialed must first be preceded by entering 94, then dial the number, followed by the pound key (#). (94 xxx-xxxx #)

Deployed call facts

1. 15 mins per call. Time starts when ringing/busy tone is initiated. You should receive a 1-minute warning for automatic disconnection.
2. If you encounter problems, contact the Tinker AFB Airman & Family Readiness Center at 739-2747

Dialing From Deployed Location

1. Dial 312-336-2426
2. Listen to recording and press 1 to make call
3. Press 1 again to allow number entry. Number dialed must first be preceded by entering 94, then dial the number, followed by the pound key (#). (94 xxx-xxxx #)

Deployed Call Facts

1. 15 mins per call. Time starts when ringing/busy tone is initiated. You should receive a 1-minute warning for automatic disconnection.
2. Calls can only be to a local (405) area code, or a toll free number. If you encounter problems, contact the Tinker AFB Airman & Family Readiness Center at 739-2747

DSN FREQUENTLY CALLED NUMBERS

The following listing includes most Air Force activities and frequently called installations of the Army, Navy, Marine Corps, and other Department of Defense activities which may be reached via DSN. A master directory for other installations not listed is maintained in a current status by the base directory operator. Certain installations have direct-in-dialing. This means, if the desired extension number at the called destination is known, it may be dialed by preceding the extension number with the prefix given in the listing below. Prefixes for in-dialing are given followed by a letter for each digit required for the extension number. For example, the in-dial prefix for Langley AFB is 574 for DSN. It is shown below as 574-XXXX, indicating that a 4-digit extension is required. If the desired extension is not known, the calling party must obtain the number from operator at the called destination before placing the call.
